

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-22278

Stream : Mississinewa River

Applicant : Marathon Ashland Pipe Line LLC
Laura McKee
5825 East Cumberland Road
Martinsville, IL 62442-0573

Description : Approximately 144' of exposed 10" pipeline and 36' of adjacent banks will be covered with 24, 8' x 20' x 4.5" concrete revetment mats placed over geotextile fabric. Temporary inflatable dams will be installed in the river during low flow conditions to create a dry work site. Seven 20' x 8' timber mats will be placed in the river to construct a temporary equipment crossing providing access from the west bank. The dams and timber mats will be completely removed upon completion of the project. Details of the project are contained in information and plans received at the Division of Water on March 19, 2003.

Location : Within the existing pipeline right-of-way, approximately 1650' upstream (south) of the confluence with Rees Ditch
DOWNSTREAM: near Eaton, Union Township, Delaware County
SW¼, SW¼, NE¼, Section 25, T 22N, R 10E, Eaton Quadrangle
Quad Code: 4008533
UTM Coordinates: Downstream 4465270 North, 640990 East
UPSTREAM:
UTM Coordinates: Upstream 4465260 North, 641000 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-22279

Stream : Moots Creek

Applicant : White County Highway Department
Steven Brooke
PO Box 67
Reynolds, IN 47980

Description : The existing single span steel truss superstructure carrying County Road 100 East over the creek will be replaced with a new structure on essentially the same alignment to improve traffic flow. The new structure will be a 3-span continuous prestressed RC I-beam bridge with span lengths of 40', 48', and 40'. The structure will have an out-to-out length of 128' and a clear roadway width of 32.5'. The spill through abutments will have 2:1 sideslopes armored with riprap over geotextile fabric. The abutments and piers will be skewed 28 degrees to align with the streamflow. The new approach roads will be elevated a maximum of 3.3' above the existing approaches. The roadway will be realigned and shifted to the west approximately 5'. The existing structure will be completely removed. Details of the project are contained in information and plans received at the Division of Water on March 18, 2003.

Location : At the existing County Road 100 East stream crossing
DOWNSTREAM: near Brookston, Prairie Township, White County
NW¼, NW¼, Section 26, T 25N, R 3W, Brookston Quadrangle
Quad Code: 4008657
UTM Coordinates: Downstream 4493000 North, 512705 East
UPSTREAM: Section 27, T 25N, R 4W

UTM Coordinates: Upstream 4492990 North, 512690 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-22280

Stream : Whitewater River

Applicant : *Indiana Department of Transportation
Carole Korbly Scott
100 North Senate Avenue, Room N642
Indianapolis, IN 46204-2216

Description : Two access channels will be excavated around Piers 2 & 3 of the existing US 70 bridges over Whitewater River to facilitate placement of revetment riprap to eliminate the present scour problem. Each channel will be approximately 172' long, 22' wide and will be excavated to a depth of 3' below the existing grade. The outer 2' will be excavated an additional 2' to "key-in" the riprap. Fill removed from the excavation will be hauled to a disposal site located outside of the floodway where it will be graded and seeded. The construction will require the excavation of 1050 cubic yds of material. Details of the project are contained in information and plans received at the Division of Water on March 19, 2003.

Location : approximately 6700' west of the US 70 and SR 1 intersection
DOWNSTREAM: near Cambridge City, Jackson Township, Wayne County
NE¼, NW¼, SE¼, Section 10, T 16N, R 12E, Cambridge City Quadrangle
Quad Code: 3908572
UTM Coordinates: Downstream 4412851 North, 656675 East
UPSTREAM:
UTM Coordinates: Upstream 4412877 North, 656694 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

30 Day Public Notice Report

Application # : FW-22284

Stream : Cool Creek

Applicant : Washington-Westfield Schools
Rick Phillips
322 West Main Street
Westfield, IN 46074-9384

Description : A new bridge will be constructed to carry pedestrians and maintenance vehicles across the stream at the new Westfield Washington Schools Athletic Complex. The new structure will be a single-span bridge with a span length of 39'. The structure will have an out-to-out length of 39' and a clear roadway width of 12'. Other proposed project features located in the floodway include: portions of four football fields, portions of a parking lot, approximately 300' of an 8' wide trail, and several areas of cut and fill grading. Details of the project are contained in information and plans received at the Division of Water on March 21, 2003.

Location : Along both overbanks, beginning approximately 3500' upstream (north) of the State Road 32 stream crossing and continuing upstream (northwest) approximately 1500'
at Westfield, Washington Township, Hamilton County
NW¼, SE¼, Section 31, T 19N, R 4E, Noblesville Quadrangle
Quad Code: 4008611
UTM Coordinates: Downstream 4433305 North, 575275 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

30 Day Public Notice Report

- Application # : FW-22291
- Stream : Unnamed Tributary Gnaw
Bone Creek
- Applicant : Dr. August Watanabe
10666 Winterwood
Carmel, IN 46032-9688
- Description : The spillway of an existing dam will be widened from 17' to 40' to increase dam safety. A portion of the crest of the dam will be raised as much as 4". The existing toe drain outlets will be relocated and the drainage will be improved. Details of the project are contained in information and plans received at the Division of Water on March 27, 2003.
- Location : Approximately 250' upstream of the confluence with Gnaw Bone Creek
near Nashville, Hamblen Township, Brown County
SE¼, NW¼, SE¼, Section 8, T 9N, R 4E, New Bellsville Quadrangle
Quad Code: 3908621

Application # : PL-19464

Lake : Lime Lake

Applicant : *Indiana Department of Natural Resources
Gregg McCollum
Division of Fish & Wildlife
402 West Washington Street, Room W273
Indianapolis, IN 46204-2267

Description : A concrete boat ramp will be constructed along 15' of the applicant's 700' frontage at Lime Lake to provide an accessible loading zone. The ramp will extend approximately 32' lakeward of, and will conform to, the lake's legal shoreline. A 5' x 5' mooring area will be constructed adjacent to the east side of the boat ramp by placing a uniform 6" layer of pea gravel on the lakebed.
A new boat well will be constructed within the applicant's property on Lime Lake. The new well will be 0' - 4.5' deep (sloping uniformly), 8' wide, and will extend 12' landward of the lake's legal shoreline. The east landward side of the new well will be stabilized with a steel sheet piling. The west and south landward sides of the boatwell will consist of glacial stone. The well will be excavated "in the dry" and will not be connected to the lake until the area has been stabilized against erosion. A glacial stone seawall will be constructed across 17' of the applicant's 700' frontage. The lakeward face of the wall will be located along the lake's legal shoreline. Approximately 8' x 30' will be dredged to a maximum depth of 4.5'. The dredging will be performed by a excavator. The excavated material will be transported to an upland detention area where it will be dewatered before being transported to an offsite disposal area. Adequate detention time will be provided to allow suspended sediments to settle out of the decanted water before returning the water to the stream. Details of the project are contained in information and plans received at the Division of Water on March 14, 2003, and March 25, 2003.

Location : Lime Lake Boat Access Site, west edge of Lime Lake
near Orland, Millgrove Township, Steuben County

Lake : Diamond Lake

Applicant : *Indiana Department of Natural Resources
Gregg McCollum
Division of Fish & Wildlife
402 West Washington Street, Room W273
Indianapolis, IN 46204-2267

Description : A concrete boat ramp will be constructed along 15' of the applicant's 1200' frontage at Diamond Lake to provide an accessible loading zone. The ramp will extend approximately 32' lakeward of, and will conform to, the lake's legal shoreline. A 5' x 5' mooring area will be constructed adjacent to the north side of the boat ramp by placing a uniform 6" layer of pea gravel on the lakebed. A new boat well will be constructed within the applicant's property on Diamond Lake. The new well will be 0' - 4.5' deep (sloping uniformly), 8' wide, and will extend 12' landward of the lake's legal shoreline. The east landward side of the new well will be stabilized with a steel sheet piling. The west and south landward sides of the boatwell will consist of glacial stone. The well will be excavated "in the dry" and will not be connected to the lake until the area has been stabilized against erosion. A glacial stone seawall will be constructed across 12' of the applicant's 700' frontage. The lakeward face of the wall will be located along the lake's legal shoreline. Approximately 8' x 30' will be dredged to a maximum depth of 4.5'. The dredging will be performed by a excavator. The excavated material will be transported to an upland detention area where it will be dewatered before being transported to an offsite disposal area. Adequate detention time will be provided to allow suspended sediments to settle out of the decanted water before returning the water to the stream.
